## BLACKLEG BREAKS OUT AT BROOKHAVEN, MISS.

BROOKHAVEN, Miss., Sept. 17. (Sp.)—Henry Leggett, county agent, gives notice that numerous cases of blackleg have been reported to him within the past four days. The disease seems to be prevalent among the young cattle throughout the county, and many farmers have lost their cattle on account thereof.

The county agent advises that the disease can be prevented by vaccination and that this is the only way to prevent the spread of the disease. Work of vaccinating the young cattle will be necessary at once, and the county

agent offers his services to all who do not understand this work, and will teach them how it is done so that each farmer may be able to vaccinate his own cattle.

As there is no cure after the animals have taken the blackleg, active cooperation of the farmers of the county with the county agent is imperative in order to prevent a spread of the disease at this time.

## THOUSANDS OF CATTLE STOLEN NEAR NATCHEZ

NATCHEZ, Miss., Sept. 17. (Sp.)—An investigation conducted by the Adams County Live Stock Association in connection with the alleged theft of thousands of cattle in this section, Philip McLaughlin, a white man, has been arrested and other arrests are expected to follow.

McLaughlin was arrested on affidavit of Judge George W. Armstrong, one of the largest cattle breeders of this section, who also has extensive ranching interests in Oklahoma and Texas.

At a recent meeting of the county live stock association Judge Armstrong declared that within the last year hundreds of head of cattle have been stolen in this section and that he personally lost about 2,000 head. He said that there was already sufficient evidence in hand to insure a number of convictions and that he was convinced that a full investigation would disclose the fact that there is an organized gang of cattle thieves operating between Natchez and Vicksburg. A resolution was passed by the association to petition Judge R. B. Jackson to call a special session of the grand jury if necessary.

It is believed that many of the cattle stolen have been loaded on barges on the Mississippi river at remote points in the county to be transported for sale.

## MAY RAISE TAXES OF RENT GLUTTONS

Plan of Increasing Assessments Is Suggested by M. W. Swayne.

Attempt to strike a blow at rental profiteers in Memphis by having the assessments on their property increased in proportion to the inflated rental value will be made by the Chamber of Commerce and Profit-sharing committee. Announcement to this effect was made Tuesday afternoon by M. W. Swayne, following a meeting of the committee, when a similar plan carried out in St. Louis was discussed.

"We have obtained the pledge of support of T. G. Scarborough, city tax assessor, who will help us ascertain whether the increase in valuation for taxation purposes of houses was advanced in proportion to the increase in rent."

"For instance, suppose we take a house which two or three years ago was assessed at \$500 and was rented for \$80 a month. Under the present rate of rents this house would bring \$80 and \$80 as rent. We propose to get Mr. Scarborough's co-operation in looking up on the assessment books whether the value has increased as much."

"If it has not, a representative of the committee will approach the owner of the house and give him the alternative of having the assessment increased in proportion, thereby increasing his taxes, or lowering his rent."
